

**TRAINING THE LIBYAN COAST GUARD:
BEST PRACTICE
- Sophia Method -**

DISTRIBUTION

This Manual has been drafted and issued by CJ7, in collaboration with specialist staff. It is predominantly designed for specific FHQ staff members and is restricted to those involved in EUNAVFORMED Operation SOPHIA OHQ. As such it cannot be distributed elsewhere without the direct permission of the OHQ.

AMENDMENTS

Version 1.0 published: 2018.

The manual and its annexes are a ‘living document’ and will be updated and amended as and when the situation dictates a change in contents. Updates will require their respective chapter or annex to be destroyed and replaced with the new version. Comments, feedback and applications for amendment should be directed to the drafters:

General description

This document covers the “Operation Sophia method” – lessons learned in training the Libyan Coastguard and Navy.

It details the categories, techniques and methods through which training has been provided by Operation Sophia to the Libyan Coastguard and Navy, and considers potential criticisms, providing in turn suggestions for improvement.
